**Become a more effective partner in racial justice work!**

**Sponsored by BLM2WUU – Black Lives Matter to Wisconsin UUs**

For predominantly white congregations to be effective allies for racial justice, we need to understand the language and dynamics of racism and injustice.

**In this workshop we will:**

- Decode some unfamiliar terminology -- examine the ways in which words matter in our work across racial divides.
- Practice ways to identify and respond to racist comments and actions by ourselves or others.

**The morning will include** opportunities for interaction and inter-congregational relationship building, a public witness for Black Lives Matter, and a light lunch.
