

# Citizen Action Presents:

A Series of Forums on

## *Milwaukee's Green New Deal:*

### Moving our Utility to Clean, Affordable Energy

#### Panelists:

**J. Drake Hamilton**, is Fresh Energy of Minnesota's Science Policy Director. An expert in climate and energy policy at state and national levels, J.'s work includes scientific analysis and policy development of clean energy solutions to global warming that will maximize economic opportunities. J. represents Fresh Energy at global climate summits and gives more than 50 invited presentations each year. J. earned undergraduate and graduate degrees in physical geography from Dartmouth College and the University of Minnesota:

**Sierra Club of Wisconsin** on status of the Clean Energy Transition in WI.

Panel members will help us explore:

- *How does our local utility compare to other utilities in the region?*
- *How can we accelerate the transition to clean energy in the Milwaukee area?*
- *What are the economic impacts of shifting from fossil fuels to clean energy?*
- *What policy changes are needed?*
- *How can the City-County Task Force developing Milwaukee's Green New Deal drive a faster, more equitable, Clean Energy Transition?*

**Date:** Thursday, February 27, 2020

**Time:** 6-8pm

**Location:** Wauwatosa Library, 7635 North Ave., Firefly Room

**Bus Routes:** 21, 67, 76
